

Construction Services Group

bland
& associates[™]
strength in numbers

Bland & Associates, P.C. recognizes the amount of time and resources required to operate a successful construction company. Project completion and employee oversight demands meticulous management involvement from business owners leaving minimal time for financial issues.

Our construction industry specialists work with general contractors, subcontractors, and homebuilders to streamline their management capabilities and develop financial solutions appropriate to the industry's complexities.

Through individually tailored services, our clients obtain:

- **increased profits**
- **improved competitive position**
- **reduced operating costs and maximized efficiency in each of the four construction phases—estimation, production, accounting, and analysis**

Building a successful business requires a team effort, and our firm's professionals proactively provide customized solutions for clients in a wide range of specialty areas including:

- **financial statement engagements**
- **income tax preparation**
- **strategic planning**
- **cash flow forecasting**
- **IRS "lookback" calculations**
- **multi-state tax planning**
- **job cost systems evaluation**
- **fixed asset reporting**
- **industry benchmarking**
- **profitability analysis**
- **technology consulting**
- **compensation planning**
- **succession/estate planning**
- **business valuation**
- **litigation support**
- **operational reviews**

The depth and breadth of experience at our firm affords us important insight into **cash flow management, work progression, project estimating, completion timelines, cost allocations, and further operational and financial issues** inherent in the industry. Working with various construction specialty groups on diverse issues while responding to market forecasts and changes, has prepared us to provide every client a premium level of service that improves the vitality of their business.
