

# Manufacturing & Distribution Services

Constantly fluctuating market forces in today's global economy impact your potential for success in the manufacturing industry. **Bland & Associates, P.C.** recognizes your ability to thrive in this changing marketplace is significantly affected by your aptitude for quick and effective analysis and adaptation. Our expertise and experience in manufacturing has afforded us knowledge necessary to face these challenges with you and provide customized solutions for your business.

At **Bland & Associates, P.C.**, we have been providing business solutions for start-up to multi-state enterprises since our founding, over 30 years ago. **Today, manufacturing is one of our largest industry specialty areas, and we take pride in offering the highest level of service and financial solutions available.** The vertical structure of the marketplace presents many challenges for your business, and we have the professionals available to navigate issues surrounding labor, globalization, new marketing channels, and capital needs.

**As your partner in growth, we offer individualized business solutions to improve your competitive position, reduce your operating costs, and maximize your profitability.** Traditional accounting, auditing, and tax services are always available, and when combined with industry-specific services, your company's development will progress with fluidity and financial prosperity.

We excel in:

- financial statement engagements
- income tax preparation
- strategic planning
- operational assessment
- cost-based accounting
- inventory control analysis
- internal control assessment
- multi-state tax planning
- employee benefits consulting
- benchmarking analysis
- merger and acquisition assistance
- business valuation
- business succession planning
- assistance with bank financing
- technology consulting
