

Physician Services Group

In today's ever-changing healthcare environment, it is critical for physicians to have consistent access to the tools and resources needed to maintain and grow their businesses. Whether you are a single office practitioner or a large medical management service organization, **Bland & Associates, P.C.** partners with your practice to provide a level of service that allows you to focus on providing care to your patients. Our healthcare industry experts are "on call" to provide you sound financial advice and guidance to help your business meet AND exceed your goals. We will not only help you to maximize your net worth, you will have the peace of mind knowing your practice is in good hands.

Our experts excel in:

- tax planning and preparation
- financial planning
- medical practice start-up, acquisitions, sales and reorganizations
- client base ratios and diversification
- operational work flow analysis and development
- medical coding reviews and analysis
- budgeting and forecasting
- complete medical practice management programs
- automation and data processing evaluations
- risk management
- Medicare/Medicaid regulatory experience

We, at **Bland & Associates, P.C.**, want to be your expert resource in building your business or practice.
